

MODEL FORM

Ask Household Member to Certify She Is Pregnant

HUD says that you must not require an applicant or resident to get written verification of her pregnancy from her doctor. However, when you learn that an applicant or resident is pregnant, you may ask her to sign a document certifying her condition for the household file. Make it clear to the household member that you are asking for the sole purpose of being able to count her unborn child for determining income limits and unit size.

CERTIFICATION BY PREGNANT HOUSEHOLD MEMBER
